

Exclusive Savings for IndependENT Members

BISCO specializes in making high-quality chemical based products that are required for successful adhesion to teeth and other dental substrates. In addition, BISCO develops and manufactures our products in the United States. Products are virtually made-to-order, so products are not warehoused for any extended period of time, assuring that materials are always fresh and will function at peak performance. BISCO is a direct selling company which allows the pricing of its products to be very competitive, thereby providing its customers the very best value for their purchases.
